---	---------	---------	-----	--------	--------

(Reasons for differences)

With regard to the actual annual consolidated financial results for the year ended March 31, 2025, the increase in sales was primarily due to the progress of large-scale overseas projects. Additionally, the completion of several small- to medium-scale domestic projects contributed to the improvement in operating loss. The increase in dividend income and share of profit of entities accounted for using equity method also led to improvements in ordinary profit and loss attributable to owners of parent.

II. Differences between Non-Consolidated Financial Results for the Fiscal Year Ended March 31, 2025 Compared to the Fiscal Year Ended March 31, 2024 (April 1, 2024 to March 31, 2025)

(Millions of yen)

	Net Sales	Operating Profit (loss)	Ordinary Profit	Net Profit (loss)	Net Profit (loss) per Share (Yen)
Previous fiscal year results (A) (ended March 31, 2024)	5,130	2,828	6,126	17,145	71.11

(Reasons for differences)

With regard to the non-consolidated financial results for the year ended March 31, 2025, while sales increased due to progress in overseas projects, operating loss, ordinary loss, and net loss for the period were recorded due to the provision for losses on the same projects as a result of an increase in the estimated total construction costs.
