# JGC, Your Trusted Contractor in Realizing Sustainable Growth

JGC to be your trusted contractor in advancing plans in responding to wide-ranging demands for infrastructure development, providing optimal solutions that lead projects to certain success and contributing to the realization of economic and social values.

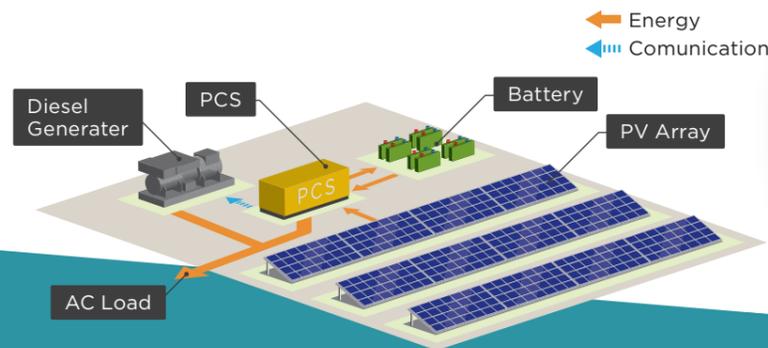

1. **Best Proposal**  
Only JGC can Offer
2. **Overall Optimization**  
By JGC as EPC Contractor
3. **ONE-STOP Services**  
Saving Client's Time and Effort
4. **Economical Execution**  
Utilizing Local Resources

# 1. Best Proposal Only JGC Can Offer

## Truly Customized Concepts with High Added Value

JGC proposes truly customized concepts to fit client needs on the basis of high added value, integrating its own technologies with external resources developed through a collaborative framework with various industrial partners worldwide.

### Example of Integration

### Diesel + PV + Battery system

A combination of diesel, PV and battery realizes a zero-emission, for facilities such as factories, hospitals, and water treatment plants.

## Bringing in Ideal Partners for Each Project

Technical Provider

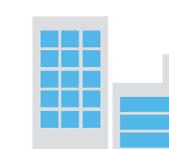

Engineering Company

Construction Company

Logistics Company

Manufacturer

Financial Institution

# 2. Overall Optimization

by JGC as EPC contractor

As an EPC Contractor with abundant experience of project management, JGC is familiar with every phase of EPC execution.

JGC will propose a project plan that maximizes return on investment for the client through overall optimization.

Your Construction Subsidiary

# 4. Economical Execution

## Utilizing Local Resources

JGC can execute projects together with JGC overseas group companies, with the goal of "execution with maximum local content," pursuing the most competitive formation with its partners.

### Our Experience :

### Construction of Two Mega-Solar Power Plants For TTC Group In Vietnam

This project was for one of Vietnam's largest mega-solar plants. After winning the bid against competitive Asian contractors, JGC successfully completed the project in December 2018, together with its subsidiary JGC Vietnam.
